

SKID MOUNTED FILTRATION SYSTEMS

Professional Grade Turn Key Filtration Systems Available for Your Water Feature Needs

RK2 Ponds SMF Systems

RK2 Ponds SMF Systems are built using quality components and craftsmanship. Each unit is built proudly in the USA and shipped ready to install.

Our SMF systems combine our unique clay pellet media, UV Sterilizer, and an RK2 SuperPro pump creating a complete filtration system. The SMF system is designed to deliver unmatched filtration and UV sterilization, providing trouble free operation for your water feature.
